SUMMARY

Professional specialist in Machine Learning and Data Analytics with extensive experience in Python, data preprocessing, and model evaluation. Skilled in powerful tools such as Pandas, Scikit-learn, Power BI, and Tableau. Passionate about developing intelligent, data-driven solutions to tackle real-world challenges and transform data into actionable insights.

EXPERIENCE

AI & Machine Learning Track

Digital Pioneers Initiative (Digilians)

📅 02/2026 📍 New Egypt, Egypt

4-month intensive program by the Ministry of Communications and Information Technology (MCIT) and the Egyptian Military Academy, studying Agentic AI

- **Advanced AI and Machine Learning**
- Building and evaluating ML models

Data Analytics Student

Google Data Analytics Specialization

📅 11/2025 - 11/2025 📍 Mansoura, Egypt

Part of Digital Egypt Pioneers Initiative

- Data Analysis and Visualization
- Used Excel, SQL, Python, Power BI, Tableau

EDUCATION

Bachelor's Degree in Artificial Intelligence

Delta University for Science and Technology

📅 01/2022 - 01/2025 📍 New Damietta, Egypt

TRAINING / COURSES

Operations Research 1 Models and Applications

Course teaching operations research models and applications, **offered by Coursera**

Machine Learning With Big Data

Course focusing on machine learning techniques for large datasets, **via Coursera**

Developed Machine Learning in Python

Course covering Utilized machine learning using Python, **issued by Coursera**

Intro to Analytic Thinking Data Science and Data Visualization

Course focused on analytic thinking and visualization techniques, **delivered by Coursera**
