

TASNEEM MAKHLOUF

Data Scientist

☎ +201143170648 @ tasneemfaisal08@gmail.com 🔗 www.linkedin.com/in/tasneemmakhlouf 📍 Cairo, Egypt

SUMMARY

Junior Data Scientist with strong foundations in data analysis, machine learning, and statistics. Experienced in working with real-world datasets and building end-to-end data solutions. Proficient in Python, SQL, and data visualization, with a focus on extracting actionable insights and solving complex business problems. Passionate about continuous learning and staying current in the evolving field of data science.

EDUCATION

Bachelor of Artificial Intelligence, Data Science Specialization

Menoufia University

📅 09/2021 - 05/2025 📍 Egypt

EXPERIENCE

Machine Learning Developer Trainee

Digilians – Digital Pioneers Initiative

📅 01/2026 📍 Egypt

Digital Pioneers Initiative in Egypt

- Developed and evaluated end-to-end machine learning models in Python using Scikit-learn, covering data preprocessing, feature engineering, and both supervised and unsupervised learning.

Business Intelligence Developer

Information Technology Institute (ITI)

📅 08/2025 - 09/2025 📍 Egypt

Completed specialized training in digital technologies at the Information Technology Institute.

- Designed interactive dashboards using Power BI and Tableau, wrote advanced SQL queries for data analysis, and applied data warehousing concepts to generate business insights

Machine Learning Intern

Prodigy InfoTech

📅 06/2024 - 07/2024 📍 India

Remote technology solutions firm

- Built 4+ ML models including a computer vision hand gesture recognition system and optimized them using performance metrics

CERTIFICATIONS

IBM Data Science Professional Certificate

IBM (Finished 12 courses)

IBM Data Analysis Professional Certificate

IBM (Finished 11 courses)

SKILLS

Technical Skills:

Python SQL R Excel

NumPy Pandas Matplotlib

Seaborn Plotly Power BI

Tableau Scikit-learn TensorFlow

OpenCV Time Series NLP

LLMs RAG LSTM CAG

Transformers Neural Networks

Soft Skills:

Adaptability Problem Solving

Communication Teamwork

PROJECTS

Academic Advisor Chatbot (Graduation Project)

📅 09/2024 - 05/2025

AI Academic Advisor using RAG + LLMs

- Developed an AI chatbot that answers university-related queries and recommends courses based on GPA, academic level, failed subjects, and prerequisites
- Achieved 99% overall system accuracy, with 97–98% correct responses across tested academic queries
- Implemented a Retrieval-Augmented Generation (RAG) architecture for contextual and personalized responses

Cheating Exam Detection Using Computer Vision

📅 09/2024 - 05/2025

YOLOv9 based cheating detection model

- Built an object detection model to detect cheating behaviors from images and videos
- Achieved ~80% validation accuracy using YOLOv9
- Performed dataset preprocessing, model training, evaluation, and real-time inference
